

UNDERGRADUATE RESIDENCE THINGS TO BRING (AND NOT BRING!)

All bedrooms are furnished with window coverings, a single bed and mattress, desk, chair, dresser, closet, lamp, and a waste/recycling bin.

THINGS YOU SHOULD BRING

Bring a cell phone, computer and a power bar with surge protection. Students can bring a compact stereo and headphones are strongly recommended.

Students should bring bed linens and a mattress topper if required. For hanging pictures and posters, bring adhesives that do not damage the wall and door surfaces like sticky tack, magic mounts and over-the-door hooks.

We also recommend bringing a bathrobe, slippers, shower shoes, shower caddy, towels and toiletries, clothes hangers, a laundry hamper and high-efficiency laundry detergent. Students can also bring under-the-bed storage bins (up to 12" high), an alarm clock, an iron and a fan.

Kitchen appliances are not permitted in residence rooms. Students are only permitted to keep a small compact refrigerator in their room. Students living in a suite must supply their own kitchen accessories such as pots, pans, dishes and utensils.

THINGS YOU SHOULD NOT BRING

Do not bring any large items or furniture. Rooms and suites are furnished and items cannot be removed from the room/suite.

Do not bring any pets, candles or illegal items. Please do not bring a subwoofer.

Kitchen appliances are not permitted in residence rooms. Do not bring cooking appliances such as microwaves and toaster ovens. Cooking is not permitted in residence unless you have been assigned to a suite-style residence with access to a kitchen. Students living in a suite-style residence can bring smaller appliances (i.e. kettle or coffee maker) as long as they are operated in accordance with fire safety regulations.

INSURANCE

We strongly recommend that students purchase contents insurance for their personal belongings before moving in. The University does not take responsibility for any personal items that are lost or damaged in residence due to theft, fire, floods or other incidents beyond our control.
